## Data Dictionary for Quarterly Dialysis Facility Care Compare Downloadable Database

**Public Release Date: January 2026** (Preview Period: November 1 - November 15, 2025)

This document provides the name, length, label, and type for each variable included in the downloadable database available on the DialysisData.org website.

The measures are calculated using the methodology described in the *Guide to the Quarterly Dialysis Facility Care Compare (QDFCC) Report* available for download from the "DFCC METHODS" tab of the Dialysis Data website

(https://dialysisdata.org/sites/default/files/content/dfccmethodology).

October 2025 Page 1 of 34

The comma separated values (CSV) file opens in Microsoft Excel with the variable names in the first row.

In the data dictionary below:

CMS = Centers for Medicare and Medicaid Services
